# CISCO NETWORKING ACADEMY

ANNA UNIVERSITY, CHENNAI-25

## ABOUT THE ACADEMY

The Anna University- Cisco Networking Academy was established between the Department of Computer Science & Engg, Anna University (AU) and Cisco Systems. The contractual agreement was signed in the year, 2003. Later in the year 2010, this academy becomes as part of Department of Information Science and Technology, Anna University, Chennai.

As a Networking Academy, we have a plan to offer CCNA Routing & Switching Training programme for the students with knowledge of computer. In addition to that, we also offer 6 self Learning and Instructor Led courses.

CISCO Systems is considered to be one of the international leaders in networking. CISCO works with educational organizations to train students and instructors on the latest networking technologies. The Academy has a state of art laboratory established by CISCO with various networking equipments & systems. The academy has already conducted Twelve training programs for the faculty of the affiliated Local Academies (LA). Forty two student batches have successfully passed out by December 2017.
